## Match It

Cut out the letters. Use them to build words with 2 letters, 3 letters, 4 letters, 5 letters, and 10 letters. Write the words in the column that matches the number of letters in the word. (An example is done for you with the word *am*)

2 letters	3 letters	4 letters	5 letters	10 letters
am				

The Mystery Word is: \_\_\_\_\_

**Hint:** First responders, usually on an ambulance crew
